5 **Broinowski, G. J. PLATES FROM THE BIRDS OF AUSTRALIA.** Chromo-lithographs, each 280 x 380 mm approx. Sydney; C. Stuart; 1890-91. ***We offer here for sale a number of loose unframed prints from Gracius J. Broinowski's *THE BIRDS OF AUSTRALIA*, lithographed in colours by S. T. Leigh & Co., Sydney, and published by C. Stuart, 1890-91. These prints were originally issued in a series of parts by subscription, each part containing approximately eight plates, and on completion the work was issued in six volumes, sometimes bound as three. We hasten to add that the prints offered here have NOT come from a set of volumes subsequently broken up by ourselves or others (a practice we deplore most strenuously). They have come from a number of odd parts, variously defective, worn or damaged, but the prints themselves are in good to very good condition, with however some minor staining, foxing or fraying, for the most part confined to the (extreme) margins only. When matted and framed, these minor defects will in most cases be entirely invisible and the prints will make attractive and decorative enhancements to any wall. The scans shown are taken from the actual copies of the prints offered, and show any minor blemishes. In order to give some idea of how they might look when framed, we have masked the margins with a semi-transparent surround through which the marginal blemishes may be discerned. Any additional minor blemishes which may not be visible from the scans have been noted. We have not taken any particular care to size or position the mask most advantageously and you are encouraged to examine the images closely to ascertain whether the prints can be suitably framed. The prints measure approximately 280 x 380 mm including margins but do vary slightly in size. The plates are priced individually — prices range from A\$20.00 — see fuller descriptions and images at:

The two parts were published as monographs in the Palaeontographical Society's series. The Index to Volume II is not present; it was apparently overlooked and was not published until 1858, when it appeared as a single leaf. The collation of this copy differs slightly from Freeman's in which no mention is made of the final leaf in Volume I, and which gives only pp. [iv] for the preliminaries to Volume II. NOTICE TO CUSTOMERS:

This is our three hundred and fourth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by post. **Please note we no longer have fax facilities.** If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist. We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by post please use the Order Form at end, we do however recommend email as cheaper, faster and more efficient.
