Cook's ship, the Resolution, accompanied by Furneaux in the Adventure, was the first to cross the Antarctic circle in January 1773. On the same voyage he circumnavigated the pole and subsequently crossed twice more, penetrating to 71 degrees S, further than anyone else for another 50 years, and possibly within sight of the Antarctic continent. This voyage in extremely difficult and dangerous conditions, was a monument to Cook's abilities as a seaman and commander - he lost only four men from a complement of 112 on the entire voyage - three through accidents and one from illness (not scurvy). The first leaf of the advertisements describes “The Minerva Library (New Series.) Large Crown 8vo, art linen, extra gilt, fully illustrated, 2s.” and Volume II in the series is this work. This volume however has a variant binding, and the three-quarter portrait of Darwin in the regular series has been replaced by a portrait of Darwin standing from the painting by Sir J. Collier in the National Portrait Gallery. We hazard a guess that this is a somewhat later publication (concurring with Freeman). The biographical introduction is by G. T. Bettany. #66390  A$125.00

Duyker, Edward. **Dumont D’Urville.** Explorer & Polymath. Roy. 8vo, First Edition; pp. 672 (last blank); 10 maps, 64 illustrations, appendix, notes, glossary, sources, index; original papered boards; a nice copy in dustwrapper. [Dunedin]: Otago [University Press]; (2014). ***Explorer Jules-Sebastien-Cesar Dumont d’Urville (1790-1842) is sometimes called France’s Captain Cook. Born less than a year after the beginning of the French Revolution, he lived through turbulent times. He was an erudite polymath: a maritime explorer fascinated by botany, entomology, ethnography and the diverse languages of the world. As a young ensign he was decorated for his pivotal part in France’s acquisition of the famous Venus de Milo. D’Urville’s voyages and writings meshed with an emergent French colonial impulse in the Pacific. In this magnificent biography Edward Duyker reveals that D’Urville had secret orders to search for the site for a potential French penal colony in Australia. He also effectively helped to precipitate pre-emptive British settlement on several parts of the Australian coast. D’Urville visited New Zealand in 1824, 1827 and 1840. This wide-ranging survey examines his scientific contribution, including the plants and animals he collected, and his conceptualisation of the peoples of the Pacific: it was he who first coined the terms Melanesia and Micronesia. D’Urville helped to confirm the fate of the missing French explorer Laperouse, took Charles X into exile after the Revolution of 1830, and crowned his navigational achievements with two pioneering Antarctic descents. Edward Duyker has used primary documents that have long been overlooked by other historians. He dispels many myths and errors about this daring explorer of the age of sail and offers his readers grand adventure and surprising drama and pathos [from the blurb]. #65676 A$95.00
37  **Fanning, Edmund.** *VOYAGES ROUND THE WORLD;* with Selected Sketches of Voyages to the South Seas, North and South Pacific Oceans, China, Etc., performed under the Command and Agency of the Author. Also, Information Relating to Important Late Discoveries; between the Years 1792 and 1832 together with the Report of the Commander of the First American Exploring Expedition, Patronised by the United States Government, in the Brigs Seraph and Annawan, to the Southern Hemisphere. By Edmund Fanning. New York: Collins & Hannay. M DCCC XXXIII. Med. 8vo, First Edition; pp. [ii](binder’s blank), xii, [13]-500(last blank), [2](binder’s blank); 2 folding & 3 full-page lithographs; original brown papered boards with green linen spine and printed paper label; (very neatly rebacked, with the original backstrip and label preserved; a little scattered light foxing & a single small dark stain (6 mm) to extreme upper margin of three leaves & one plate; these blemishes however all essentially trivial); an unusually fine, very clean copy, especially the plates which are in excellent state, the paper nice and crisp throughout; an exceptional copy in original condition of a book usually found in very foxed and browned state; preserved in a well-made leather-backed cloth folding box; very rare. New York; Collins & Hannay; 1833. ***Hill, pages 100-101 (Hill 2, No. 581); Ferguson 1643; Spence 454; Renard 518. An interesting copy, with the inscription ‘Deposited May 11. 1833’ at head of title-page and Library of Congress duplicate stamp and number (1582) in pink ink on verso (but no other markings anywhere apart from the intriguing - date? - 2-14-32 in similar pink ink on pastedown); and from the library of Frederick Ellis of Shaw Island, with his bookplate on pastedown and signature on free endpaper. Full of interest, this is an important work giving Fanning’s experiences in several voyages to the Pacific and round the world. Fanning discovered several previously unknown islands and was instrumental in sending out the expedition under Captains Palmer & Pendleton in 1829. In addition his petition to Congress and other personal efforts were largely responsible for the Act of May 14, 1836 authorizing the United States Exploring Expedition under Charles Wilkes. Fanning visited China, Fiji, Tonga, the Marquesas, King Georges Sound and the desolate island of South Georgia, and the work contains detailed accounts of sealing around the Australian coast and elsewhere in the South Seas. Amongst other material of Australian interest, Fanning gives an account of his rescue from the Marquesas of the missionary Rev. William Pascoe Crook, and an account of the Sydney trader Simeon Lord and his sandalwood and sealing ventures. #13069  A$2750.00

Jarman, Robert. *Journal of a Voyage to the South Seas, in the “Japan,”* employed in the Sperm Whale Fishery, under the Command of Capt. John May. By Robert Jarman. First published at Beccles and London in 1838. Edited, with an Introduction, Notes, Chronology, and Index, by Robert M. Warneke, and faithfully reprinted from the original. Melbourne: Edition Renard 2009. 8vo, Deluxe Limited New Edition; pp. XII, vi, 242, [243]-318; portrait, introduction, extensive notes, chronology, references and index; fully section-sewn on tapes and hand-bound in original half grey goatskin with black moire cloth sides, top edge dyed, and marker ribbon. Melbourne; Edition Renard; 2009. ***Deluxe limited edition of 70 numbered copies within the overall limitation of 200 copies for sale. A new edition of the very rare account first published in two issues in 1838 and until now never reprinted - see Forbes 1104, also Bagnall 2685 and Ferguson 2526 (and 2526a). Robert Jarman, the son of a printer at Beccles, joined the crew as a young man of twenty years on a whaling voyage to the South Seas in 1831. During the next three to four years young Robert’s forecastle jottings were transformed into a lively and well-crafted tale. The primary theme is the hard, unrelenting search for whales, reflected in Jarman’s methodical recording of encounters with other whalers and elaborated with graphic descriptions of the excitements and dangers of whaling with the inevitable accidents, injuries, and tragic deaths. After cruising the Japan Sea, the ship reached the Hawaiian Islands at the end of October 1832 and anchored at Honolulu. “The author noted 18 whalers in port. He describes the harbor and the method by which ships were towed in, and the Honolulu Fort, and the town and its native people” (Forbes). He tells also of surviving gales and near disaster when the Japan was dismasted in a hurricane, which forced the stricken ship to Sydney for extensive repairs. Jarman gives an interesting account of Sydney, with perceptive comments on convicts and their management and the Aboriginals and their customs including the use of the boomerang. Subsequently the ship cruised around Rotuma, the Fiji Islands and New Zealand before returning to England. Along the way Jarman gives accounts of visits to bays and islands to trade for fresh provisions, and of longer stays at various ports for wood, water and to benefit the crew. A welcome respite from the rigors and grinding repetition of shipboard life, Jarman was obviously captivated by those of the natives who were friendly, and he perceptively and sympathetically described their modes of life, customs, and the effects of European intercourse and colonization. The scope and appeal of this book is enhanced by some lengthy passages on natural history, including observations on the social behaviour of sperm whales and encounters with sharks, other fish and birds. Because of several chance but pertinent events he was able to include commentaries on several dramatic episodes of Pacific maritime history, such as the Bligh mutiny and its aftermath, and recent massacres of ships crews by islanders — a constant fear for lightly-armed visiting whalers. #27823 A$325.00

John Lingwood Stuart’s three manuscript journals, here collected under the title **THREE COLONIAL ADVENTURES**, have never before been published. Written in 1849, 1851 and 1852-53 they provide a fascinating insight into the migration of a young man from England to Adelaide in South Australia and his subsequent adventures in his new land. His first journal comprises an interesting shipboard diary of his voyage to Australia on board the Minerva. Whilst not a particularly remarkable voyage in itself, his journal captures beautifully the experience of a migrant in the mid-nineteenth century, conveying with gentle humour just what it was like to be a passenger in those times, the routine, the duties, the boredom, the occasional excitement, the wildlife observed, the sickness and (fortunately few) deaths, and of course, the weather.

His second journal is much more unusual and historically important. In 1851 Stuart signed on to a sealing expedition in South Australian and Kangaroo Island waters on the cutter Jane and Emma and he gives a detailed daily account of the progress of the voyage, the places visited, seals killed, skins and oil obtained, other wildlife observed, and encounters with sailors, settlers, and Aborigines.

Following his return to Adelaide, in 1852 Stuart embarked on another expedition, this time overland by bullock dray to the diggings at the Bendigo goldfields. Again, historically important, and one of the few detailed journals of the time, Stuart recounts his adventures following the Murray and Loddon Rivers including comments on the squatters and Aboriginal people encountered along the way, the difficulties of travelling with bullocks and much else. Arriving at Bendigo he and his companions spent a few days investigating various gullies before commencing digging in Geelong Gully where almost immediately they found gold.

All three journals have dated daily entries and have been meticulously transcribed, but the wealth of interesting information has been hugely supplemented by the detailed and informative footnotes and the account of Stuart’s life (he subsequently became a mining engineer) by Robert M. Warneke. In addition Robert has provided maps of the two Australian journeys, carefully reconciling the places mentioned by Stuart to the geography; a detailed analysis of the seal catch and notes to the wildlife encountered in all three journeys; and an extensive bibliography of the references used. A detailed description of the original journals is provided by Julien Renard.

An entirely new and original work, never before published, our edition has been elegantly typeset with sparing and judicious use of colour to enhance the text and capture the flavour of the manuscript originals, and the volumes have been finely hand bound by Peter Lewis. #68040 A$285.00

73 Walter, Richard [& Robins, Benjamin]. A VOYAGE ROUND THE WORLD, In the Years MDCCXL, I, II, III, IV. By George Anson, Esq; Commander in Chief of a Squadron of His Majesty’s Ships, sent upon an Expedition to the South-Seas. Compiled From Papers and other Materials of the Right Honourable George Lord Anson, and published under his Direction, by Richard Walter, M.A. Chaplain of his Majesty’s Ship the Centurion, in that Expedition. Illustrated with Forty-Two Copper-Plates. London: Printed for the Author; By John and Paul Knapton, in Ludgate-Street. MDCCXLVIII. Thick Royal 4to, First Large Paper Issue of First Edition; pp. [vi], [xii] (list of Subscribers), [xvi] (Contents & Introduction), 418 (last blank), [2] (Directions to the Binder); 12 folding charts, 2 folding plans, 28 folding plates; original roan-backed marbled boards; (joints cracked, but cords firm; boards very slightly rubbed; spine ends worn with small portion missing from foot); ENTIRELY UNCUT, AS ISSUED; a very fine, clean and crisp copy; EXTREMELY RARE in such condition. Printed for the Author; by John & Paul Knapton; 1748. ***Tew 1, noting (in an unpublished bibliography) that this Royal Paper issue is very rarely found. As for the standard issue on demy paper the earliest issues of the First Edition were published without the world chart which was not done until later issues. While Lord Anson’s own copy (and some others) do have the world chart, most copies of the First Edition (on both sizes of paper) are without it and it is not included in the list of charts and plates. This copy
is entirely undisturbed in its original binding and clearly never had the world chart. Page 319 is misnumbered 219 as in the standard issue. There is a contemporary Ms. correction on page 14, and contemporary inked initials on the title page - E. H. - suggesting that this copy belonged either to Sir Edward Hawke (Vice-Admiral of the Blue) or to Edward Hooper, as these are the only two subscribers with these initials. There are 373 subscribers to this, the Royal Paper edition and very, very few copies will have survived in their original publisher's binding as here. This Royal Paper issue is truly a magnificent production with generous margins and thicker, superior paper. While not a particularly uncommon title, copies of the Royal Paper issue, entirely undisturbed, are of extreme rarity.

This, the official account of the famous voyage, was immediately immensely popular, and ran to many editions. The list of subscribers to the First Edition occupies 12 pages, closely set in three columns to the page. Many of the illustrations are from drawings by Lieutenant PIERCY BRETT, who was placed in command of the captured Manila galleon, and who also contributed to the relation of the voyage. The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned. The contribution to geographical knowledge was negligible. Renard 1669 (THIS copy). #41035 A$27,500.00

79  Zimmermann, Heinrich. **DERNIER VOYAGE DU CAPITAINE COOK AUTOUR DU MONDE**, ou se trouvent les circonstances de sa mort, Publie en Allemand par Henri Zimmermann temoin oculaire, & traduit avec un abrège de la vie de ce navigateur celebre, & des notes. Berne, Chez la nouvelle Societe typographique. 1783. Second Edition in French: pp. xvi, 200; in most attractive full contemporary vellum, gilt (a trifling stain at foot of spine only), marbled edges; a fine copy; very rare. Berne; la nouvelle Societe typographique; 1783. **Beddie 1630; Holmes 44 (q.v.); Forbes 59; Du Rietz 1364. All early editions of this important account of Cook's Third Voyage, published four years before the official account are very rare, the first [German] edition extremely so. It was not translated into English until 1926. This second French edition is reset from the first of the previous year but is identical apart from the ornamentation on the title-page and the date at its foot. Both French editions are of great rarity and are of particular interest as they contain additional matter not found in the original German editions or in the (late) English translations. This additional matter comprises some brief introductory notes by one Roland (almost certainly the translator), the “Abregee” Life of Cook (pp. 118-172), and quite extensive notes (pp. 173-200 - some forty numbered items). Holmes and Du Rietz note that the “Life” appears to be a somewhat abridged translation of Lichtenberg and Georg Forster’s early life of Cook, published in Gottingen in 1780. Zimmermann was coxswain in the “Discovery” and as a foreign national (he was a native of Speyer) was able to withhold his journal despite the instructions to surrender all logs and journals which were given to all serving officers and men. As a low-ranking member of the expedition his account gives an interesting and different perspective from the other accounts of Cook’s third voyage. Holmes notes that “his appreciation of Cook’s character deserves to rank with that of Samwell.” #8241
