71 [Maitland, William. **THE HISTORY OF LONDON FROM ITS FOUNDATION TO THE PRESENT TIME.** London; Printed for T. Osborne; 1760]. The folio Atlas volume [only] from this esteemed work, containing 131 finely engraved plates, maps and plans (13 folding), the majority engraved by B[enjamin]. Cole, numbered 1-131, lacking nos. 29, 76, 124 & 129, but with two different plates numbered 30 and another two numbered 67, plus two unnumbered plates (these with the later imprints - see below). In addition there are two unnumbered large folding maps, the first being: 'London, Westminster and Southwark, Accurately delineated from the latest Surveys, to which is now first added a Correct List of upwards of 350 Hackney Coach Fares from the principal Stands, to the most frequented Places in and about the Metropolis in the Year 1783', partially hand-coloured and 'Published as the Act directs, June 6, 1782, by J. Wallis, No. 16, Ludgate Street.' The second is 'A New and Accurate Topographical Survey of the environs of London describing all the Roads, Rivers, Parks, Seats, &c. &c. within Twenty Miles of the Metropolis.' engraved by J. Cary and also 'Published as the Act directs, September 7, 1782, by J. Wallis, No. 16, Ludgate Street.' The plates numbered from 122 also bear imprints dated 1771 or later and are executed by different engravers. This suggests that this Atlas comes from the later, augmented, reissue by John Entick (1776) but we have been unable to positively identify it as such. The plates by Cole do appear to come from the 1756 edition, some subjects being identified as dating from 1755 or 1756 (such as the view of St. Dunstan's Church in Stepney and several plans). Plate 61 has a few short clean tears; Plate 48 has a mild waterstain to upper left corner, the remaining plates are fine and clean. Bound in contemporary half calf, with marbled sides, spine unlettered, the boards rubbed & somewhat soiled, the spine and corners worn and joints cracked, with two cords to front joint broken, but otherwise sound and internally clean; rare. [London; T. Osborne / J. Wallis; 1756-76]. ****A fine collection of plates showing the architecture, scenery and topography of London. Maitland's work was first published in 1739, with a second edition in 1756, reissued in 1760 and again in 1776 (with additions).* #68206 **A\$1200.00**

NOTICE TO CUSTOMERS:

This is our three hundred and thirteenth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by post. **Please note we no longer have fax facilities.** If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist. We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: books@GastonRenard.com and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by post please use the Order Form at end, we do however recommend email as cheaper, faster and more efficient.
