The Statistical Matter is furnished by the Government Statist, J. Boothby, Esq. This Atlas is the first of the kind ever produced in the colony, and will be thoroughly authentic to date of publication; it will be found eminently useful to the Merchant and Squatter as a Work of Reference, and with the Schoolmaster or Man of Family as the best means extant of furnishing the rising generation of the Colony with a thorough geographical knowledge of South Australia and the Northern Territory. To His Excellency Sir Anthony Musgrave, K.C.M.G., &c., Governor and Commander-in-Chief of the Province of South Australia, This Atlas is, with His Excellency's permission, Respectfully Dedicated, by His Excellency's Most Obedient Servant, the Proprietors, F. The two parts were published as monographs in the Palaeontographical Society's series. The Index to Volume II is not present; it was apparently overlooked and was not published until 1858, when it appeared as a single leaf. The collation of this copy differs slightly from Freeman's in which no mention is made of the final leaf in Volume I, and which gives only pp. [iv] for the preliminaries to Volume II. As Freeman notes, a complete set of the Palaeontographical Society's monograph volumes appeared in facsimile in 1966, but Darwin's work was not available alone.* #66799 **A\$1850.00**

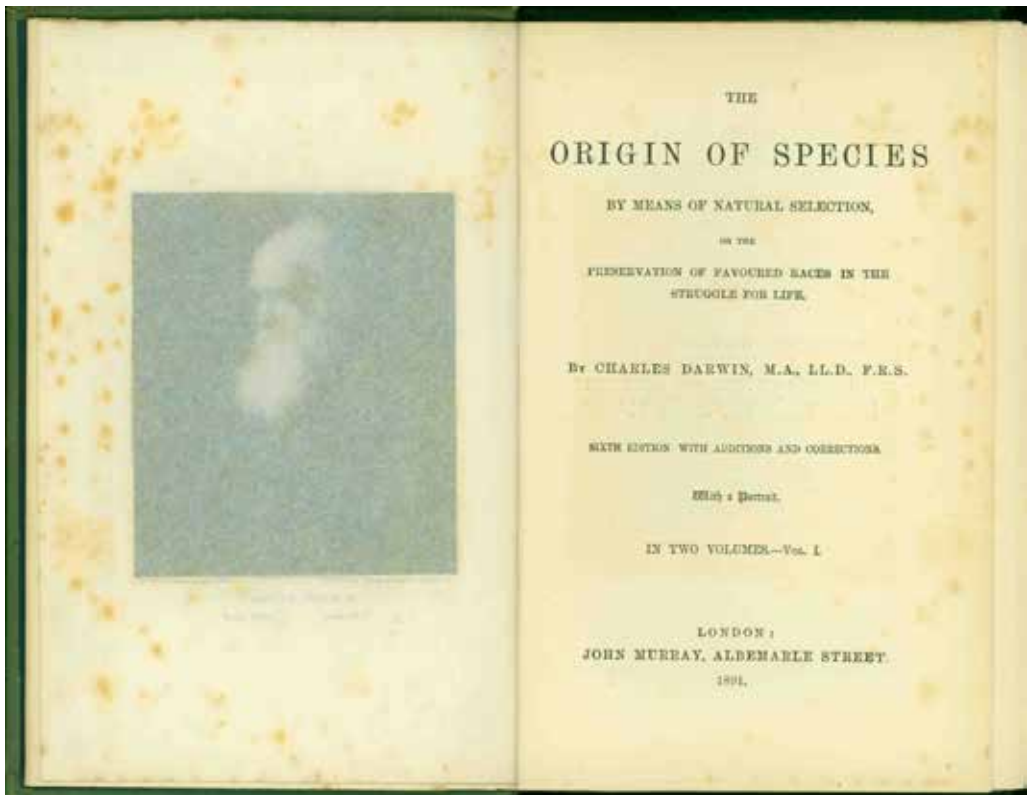

- 19 **Darwin, Charles. **THE MOVEMENTS AND HABITS OF CLIMBING PLANTS.**** By Charles Darwin, M.A., F.R.S., etc. Second Edition, Revised. With illustrations. London; John Murray; 1875. \*\*\**Freeman 836. A considerable revision and enlargement of the first edition published in the Journal of the Linnean Society ten years earlier. Often described as the first edition in book form, this is not strictly true as the first, Linnean Society, version was also issued commercially at a price of Four Shillings (see Freeman 834).* #66728 **A\$195.00**

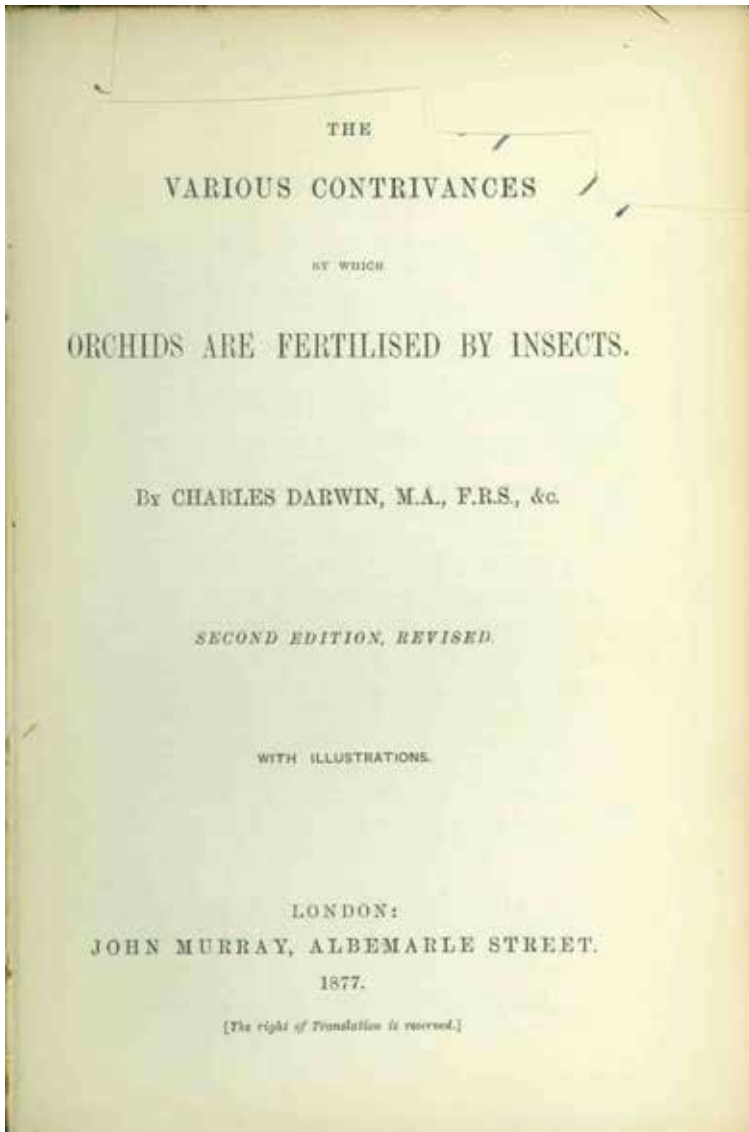

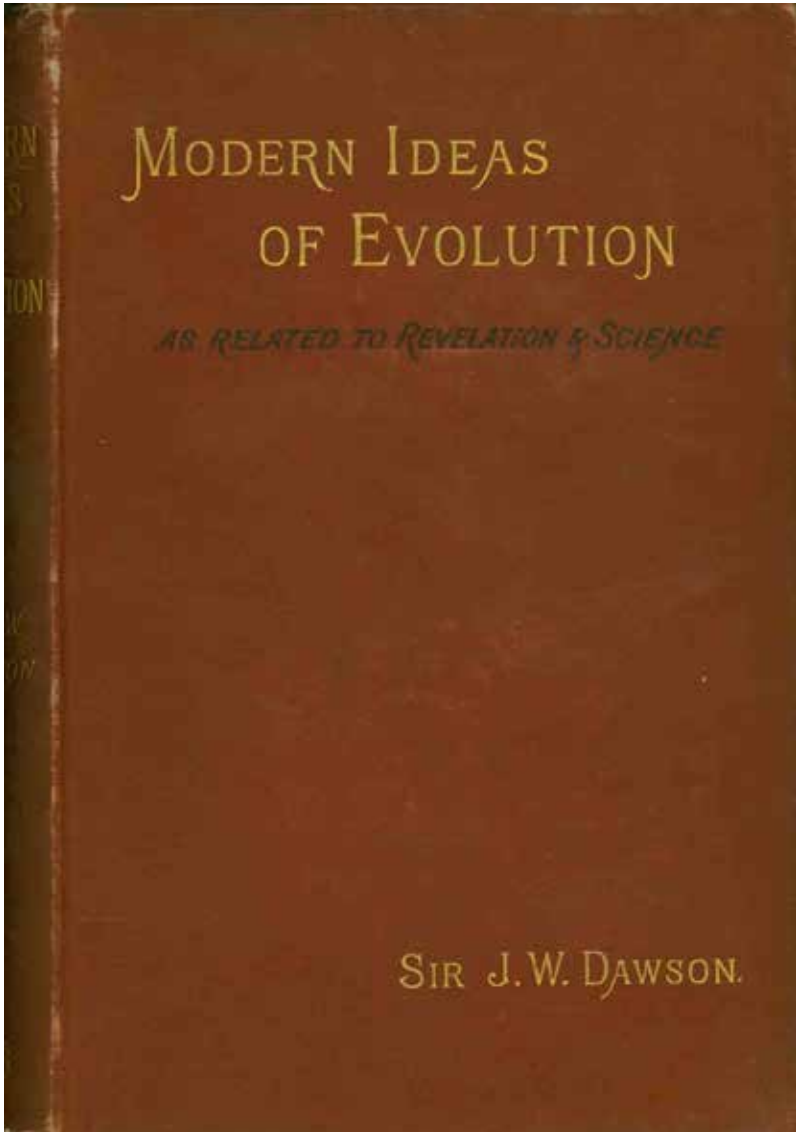

- 20 **Darwin, Charles. *THE ORIGIN OF SPECIES*** by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life. By Charles Darwin, M.A., LL.D., F.R.S., etc. Sixth Edition, with Additions and Corrections. With a Portrait. In two volumes.—Vol. I [II]. London: John Murray, Albemarle Street. 1891. Cr. 8vo, Sixth Edition, Second Issue of Library Edition; Vol. I, pp. [ii], xxvi, 366, [2](adv., verso blank); portrait frontispiece (with tissue-guard), folding diagram; Vol. II, pp. vi, 340; glossary, index; original grey-green cloth; original navy blue chalk-surfaced endpapers; (spines a little dull & ends slightly worn; a little foxing at start of first volume); a nice set; very scarce. London; John Murray; 1891. \*\*\**Freeman 437. The Sixth Edition was the final edition extensively edited by Darwin and the first edition to drop the word 'ON' from the title and the first edition of the 'Origin' to use the word 'evolution'. The Glossary was compiled by W. S. Dallas at Darwin's request. This two-volume edition, the second in this form, it having first been issued in 1888 (Freeman 422) as the 'Library Edition', is a handsome work, with larger type and printed on thicker paper. The title-pages to this set are cancels, suggesting it may simply be a re-issue of the 1888 edition, and there is no indication of a 'Library Edition' as such, however the word 'indigeens' in Chapter IV has been corrected to 'indigenes' and the text is clearly printed from stereotypes, at least in part, so the reason for the cancels is somewhat obscure, and as such not noted by Freeman. Both of these two-volume issues are very seldom seen on the market, presumably being destined for libraries, and were probably produced in quite limited numbers, this issue having no 'thousand' designation and the original two-volume issue of 1888 sharing the Thirty-third Thousand designation with another one-volume issue having the regular pagination and small type of the one-volume sixth edition.* #66452 **A\$850.00**

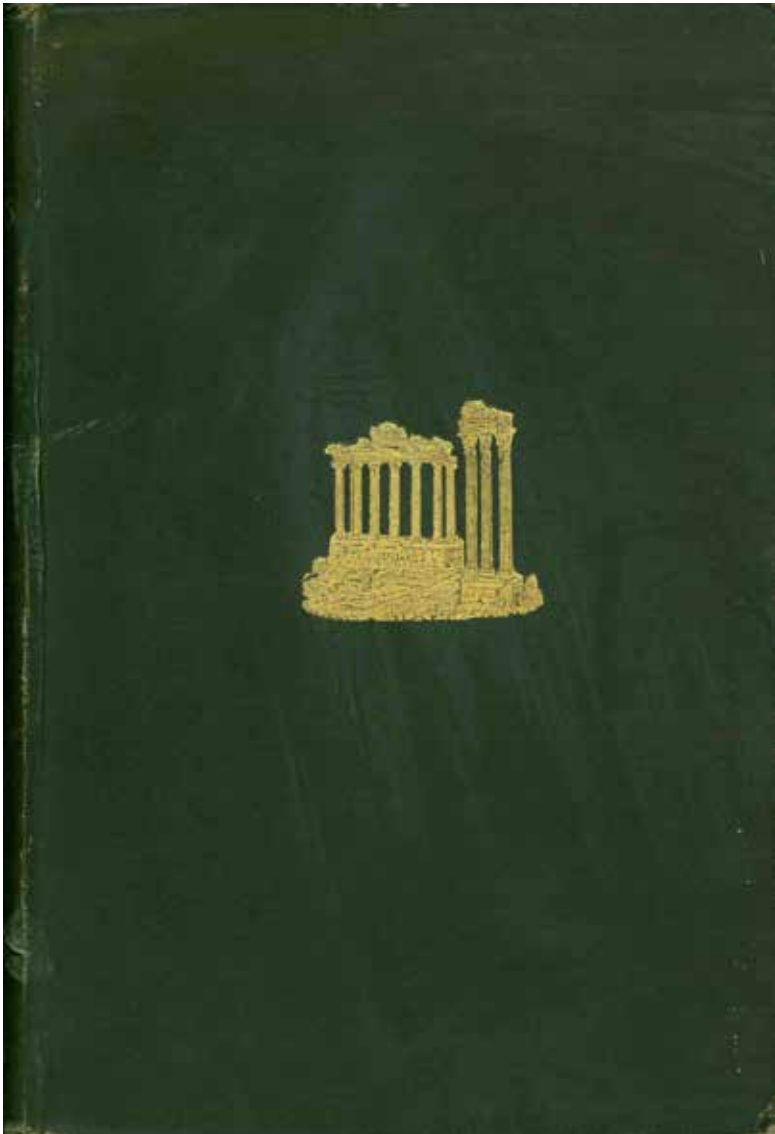

- 21 **Darwin, Charles. THE VARIOUS CONTRIVANCES BY WHICH ORCHIDS ARE FERTILISED BY INSECTS.** By Charles Darwin, M.A., F.R.S., &c. Second Edition, Revised. With Illustrations. London; John Murray; 1877. \*\*\**Freeman 801. The second issue of Darwin's work, first published in 1862, here with considerably altered text, augmented by the text of a paper first prepared for insertion in the first French translation and a bibliography of works on the subject published in the intervening period.* #66715 **A\$475.00**

*All these pamphlets are scarce or very scarce, this collected issue even more so. The introduction [to this collected issue] notes: "The first lecture in this volume inaugurated the winter series, 1869, and was published in pamphlet form, but met with so limited a sale, that it was considered inexpedient to continue the experiment. ... Considerable disappointment and dissatisfaction having been expressed, at the the non-publication of the whole of the first series, the Committee determined to make arrangements for publishing each Lecture of the winter series, 1870."*

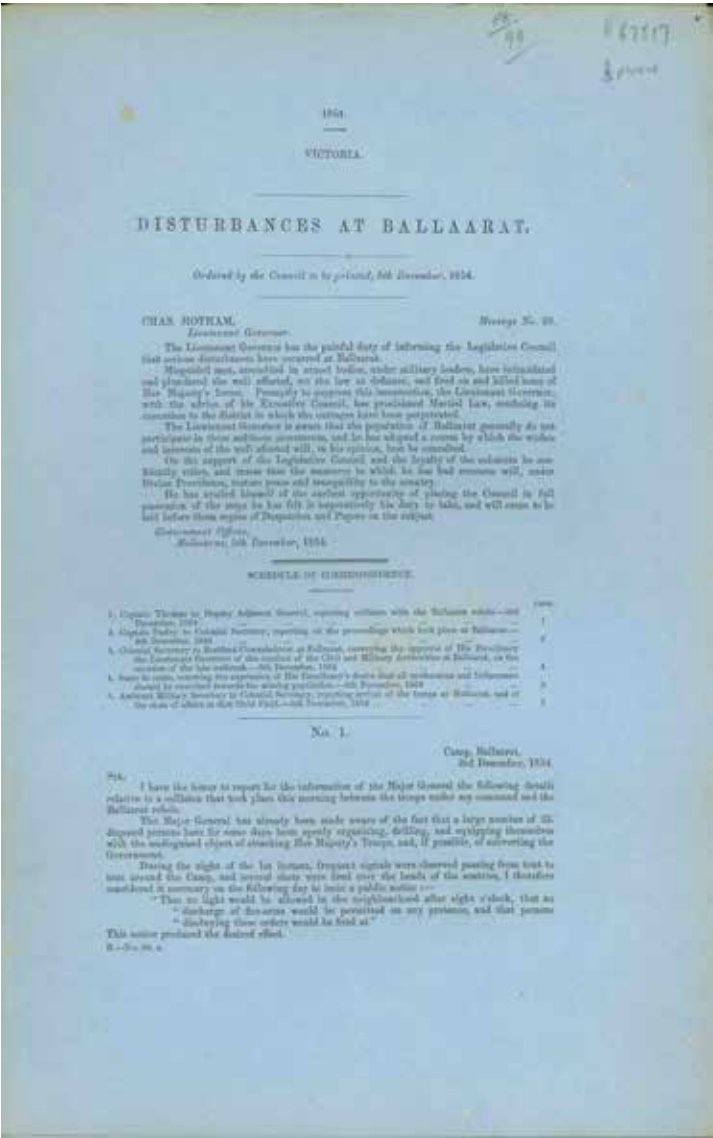

*The Early Closing Association was an organisation of retail workers formed in Victoria in the 1850s which had counterparts in the U.K. in the 1840s and similar organisations were founded in South Australia, Queensland and New South Wales in later years. With the object of securing improved working hours and earlier shop closing times, the organisation relied on Public Meetings and 'moral persuasion' rather than strike action. The lectures by M'Coy and Bromby are of particular interest for the ongoing debates between religion and evolution. #65569* **A\$500.00**

Demy 12mo; pp. [iv],xiv, [15]-420(last blank), [421]-424(last blank, Appendix), [8](adv.); lithographed illustrated title-page (additional) & 11 lithographed plates, appendix; original blind-stamped cloth (spine a little worn; minor staining to inner margin of first few leaves; some foxing); a very good copy; scarce. Boston; Gould and Lincoln; 1855. \*\*\**A curious edition. The lithographed title-page is dated 1851, but the work was first published in London in 1848 without the abstract by Kneeland (Boston, 1851), which first appeared in Gould and Lincoln's 1851 edition. The verso of the (typeset) title-page states that it was "Stereotyped by Hobart & Robbins; New England Type and Stereotype Foundry, Boston." and below (in different type) "Printed by George C. Rand & Co., No. 3 Cornhill." There is also a "Publishers' Advertisement to the English Edition", (pp. v/vi), however everything about the printing and make-up of the volume (printing, paper, imposition, binding, etc.) is suggestive of an American rather than English production. The work includes references to Australian, Papuan and New Zealand natives and there are illustrations of a Papuan and a New Zealander.* #65489 **A\$175.00**

## NOTICE TO CUSTOMERS:

This is our three hundred and thirtieth short list. We hope you find something of interest.

We intend to produce many more lists in future on a variety of subjects and we would prefer where possible to send these by email as PDF file attachments or links to files on our Website. This has the obvious advantage of reducing costs and enhancing the speed of delivery and the email/PDF versions will also be enhanced with colour illustrations. A fully illustrated version of this list in pdf format is also available on our website or will be emailed on request. Likewise we encourage you to send orders by email, fax or telephone.

If you would like to receive future lists please indicate your interests by email (preferred) or by using the form below by post. **Please note we no longer have fax facilities.** If you would like to receive ALL lists (email only) please let us know also. If for any reason you do not wish to receive any more of these lists, also please let us know and we will cease and desist. We have experimented with a number of forms for emailing orders to us but many security systems now prevent such links from working correctly so we suggest simply emailing us at: [books@GastonRenard.com](mailto:books@GastonRenard.com) and copying and pasting the entries of the items you want from the list above. If you encounter any difficulties, please let us know! For orders by post please use the Order Form at end, we do however recommend email as cheaper, faster and more efficient.
