- 11 **Zimmermann, Heinrich. DERNIER VOYAGE DU CAPITAINE COOK AUTOUR DU MONDE**, ou se trouvent les circonstances de sa mort, Publie en Allemand par Henri Zimmermann temoin oculaire, & traduit avec un abrege de la vie de ce navigateur celebre, & des notes. Berne, Chez la nouvelle Societe typographique. 1783. Second Edition in French; pp. xvi, 200; in most attractive full contemporary vellum, gilt (a trifling stain at foot of spine only), marbled edges; a fine copy; very rare. Berne; la nouvelle Societe typographique; 1783. ****Beddie 1630; Holmes 44 (q.v.); Forbes 59; Du Rietz 1364. All early editions of this important account of Cook's Third Voyage, published four years before the official account are very rare, the first [German] edition extremely so. It was not translated into English until 1926. This second French edition is reset from the first of the previous year but is identical apart from the ornamentation on the title-page and the date at its foot. Both French editions are of great rarity and are of particular interest as they contain additional matter not found in the original German editions or in the (late) English translations. This additional matter comprises some brief introductory notes by one Roland (almost certainly the translator), the "Abreege" Life of Cook (pp. 118-172), and quite extensive notes (pp. 173-200 - some forty numbered items). Holmes and Du Rietz note that the "Life" appears to be a somewhat abridged translation of Lichtenberg and Georg Forster's early life of Cook, published in Gottingen in 1780. Zimmermann was coxswain in the "Discovery" and as a foreign national (he was a native of Speyer) was able to withhold his journal despite the instructions to surrender all logs and journals which were given to all serving officers and men. As a low-ranking member of the expedition his account gives an interesting and different perspective from the other accounts of Cook's third voyage. Holmes notes that "his appreciation of Cook's character deserves to rank with that of Samwell." #8241* **AS\$14,500.00**

58 **Walter, Richard** [& **Robins, Benjamin**]. **A VOYAGE ROUND THE WORLD**, In the Years MDCCXL, I, II, III, IV. By George Anson, Esq; Commander in Chief of a Squadron of His Majesty's Ships, sent upon an Expedition to the South-Seas. Compiled From Papers and other Materials of the Right Honourable George Lord Anson, and published under his Direction, by Richard Walter, M.A. Chaplain of his Majesty's Ship the Centurion, in that Expedition. Illustrated with Forty-Two Copper-Plates. London: Printed for the Author; By John and Paul Knapton, in Ludgate-Street. MDCCXLVIII. Thick Royal 4to, First Large Paper Issue of First Edition; pp. [vi], [xii](list of Subscribers), [xvi](Contents & Introduction), 418(last blank), [2](Directions to the Binder); 12 folding charts, 2 folding plans, 28 folding plates; original roan-backed marbled boards; (joints cracked, but cords firm; boards very slightly rubbed; spine ends worn with small portion missing from foot); ENTIRELY UNCUT, AS ISSUED; a very fine, clean and crisp copy; EXTREMELY RARE in such condition. Printed for the Author; by John & Paul Knapton; 1748. ****Tew 1, noting (in an unpublished bibliography) that this Royal Paper issue is very rarely found. As for the standard issue on demy paper the earliest issues of the First Edition were published without the world chart which was not done until later issues. While Lord Anson's own copy (and some others) do have the world chart, most copies of the First Edition (on both sizes of paper) are without it and it is not included in the list of charts and plates. This copy is entirely undisturbed in its original binding and clearly never had the world chart. Page 319 is misnumbered 219 as in the standard issue. There is a contemporary Ms. correction on page 14, and contemporary inked initials on the title page - E. H. - suggesting that this copy belonged either to Sir Edward Hawke (Vice-Admiral of the Blue) or to Edward Hooper, as these are the only two subscribers with these initials. There are 373 subscribers to this, the Royal Paper edition and very, very few copies will have survived in their original publisher's binding as here. This Royal Paper issue is truly a magnificent production with generous margins and thicker, superior paper. While not a particularly uncommon title, copies of the Royal Paper issue, entirely undisturbed, are of extreme rarity.*

This, the official account of the famous voyage, was immediately immensely popular, and ran to many editions. The list of subscribers to the First Edition occupies 12 pages, closely set in three columns to the page. Many of the illustrations are from drawings by Lieutenant PIERCY BRETT, who was placed in command of the captured Manila galleon, and who also contributed to the relation of the voyage. The expedition was considered a successful venture owing to the capture of the richly laden Manila galleon, but over 1000 lives were lost and out of seven vessels only the flagship Centurion returned. The contribution to geographical knowledge was negligible. Renard 1669 (THIS copy). #41035

London; Printed by H. Hughs; 1785. ****Without the folio Atlas, issued separately. This second edition, printed by Hughs rather than by Strahan has been entirely reset from the First Edition of the previous year, with the wording of the title-page altered and the addition of the medallions to the title-pages. It is, and was at the time, considered to be typographically superior to the First Edition. See Holmes 47; Beddie 1552; Forbes 85.* #34112 **A\$4000.00**
